About This Game

You are a being created from the God of Nothing, born without a name and referred to only as a “husk”. Sent to acquire the blessings of the gods, you must persevere against the many challenges they present to you. Whether they are angry, complacent, or indifferent, you mustn’t waver from your duty, lest you find yourself as an abandoned corpse that none shall remember. Dodge a multitude of intricate patterns as you delve deeper into the secrets of universe, receiving blessings so that you may become something more. When all is said and done, what will you become?

Features:

- Bullet-dodging!
- Pixel art!
- Optional checkpoints!

-Practice mode!

-A storyline that is, quite frankly, edgy.

-All developed by one person!

Title: Nothing to God
Genre: Casual, Indie
Developer:
George Horta
Publisher:
George Horta
Release Date: 11 Mar, 2018

a09c17d780

Minimum:

Processor: Anything, really

Memory: 200 MB RAM

Graphics: Almost Any

Storage: 120 MB available space

Additional Notes: These are rough estimates, based on profiler data. Just don't use a potato computer.

English

"This sea is sacred! I sing it morning melodies and caress and you DARE to lay so much as a finger on it? You shall pay with your life!"

"Dearest creature, you entertain me so. I grant thee the power of life! Not only shall you host a being that is alive, but you will have the power to raise it as well."
